

Environmental Policy Statement

Lawrences shall ensure that our operations comply with and where possible exceed environmental legislation, approved codes of practice and other requirements to which the organisation subscribes that relate to our environmental aspects whilst at the same time co-operating fully and maintaining open relationships with all regulatory authorities.

The Company is committed to the process of enhancing its environmental performance and will continually measure and monitor standards and encourage a culture of continual improvement whilst at the same time ensuring that all staff members are aware of environmental issues and equally important the environmental impact of their activities.

Lawrences is committed to continually increasing the percentage of materials recovered and recycled from all incoming waste streams and reducing the amount of material sent to landfill in part by raising awareness of the benefits of separation at source where practicable with our customers. Additionally where practicable, Lawrences will only use suppliers who hold environmental policies compatible with our own.

This policy will be communicated to all staff members working for or on behalf of the company and made available to interested parties and reviewed annually to ensure that it evolves in line with legislation as well as the organisation's activities and the local community.

David Lawrence
Managing Director
